

# My vision as a candidate for the presidency of the EAPCI

Pr Martine Gilard, MD, PhD, FESC

## Embracing opportunities for growth and ensuring progress

### The challenges facing our Association

Adoption of innovation in healthcare

Evolution in medical education and training

Reduced financial support from industry

Environmental and societal changes

Complex regulations at FDA, EU and national level

**EAPCI**  
European Association of  
Percutaneous Cardiovascular  
Interventions

 European Society of Cardiology

# What I want to focus on

## Transforming tomorrow through Education today

Medical  
Education and  
Training

By ensuring that the EAPCI is a **vector of education**

By applying **adult learning** principles to healthcare professionals and patients

By adapting to **new learning methods**: e-learning, social media, simulation

By reflecting on how our profession will **respond to the needs of a changing world**

# What I want to focus on

## Reinforcing communication and collaboration with WG/NCS

Collaboration  
with  
WG/NCS

By **improving the collaboration** with National Working Groups and National Cardiac Societies

By **increasing visibility and attractiveness** within National Cardiac Societies

By **promoting scientific networks across borders**

# What I want to focus on

## Improving Equality, Diversity and Inclusivity

Equality  
Diversity  
Inclusivity

By representing **all health care professionals** working in the field of interventional cardiology, as well as **patients**

By striving for **gender, geographic and generation balance** for leadership positions

# What I want to focus on

## Developing Person-centred healthcare

By emphasizing **the patient perspective**

By considering **geographical diversity** in collaboration with patient associations

By endorsing and developing a **shared-decision making process**
